

## My Fourth Dimension Project

by Katie

The fourth dimension is such an abstract concept. It is interesting, but it is also very puzzling because it is hard to envision this idea. The fourth dimension reminds me of infinity, because it stretches my brain to the limits.

My project on the fourth dimension is based on the piece of art work by Max Weber entitled, *Interior in the Fourth Dimension*. It is not my original idea, but it is a spin off of what Weber envisioned the fourth dimension to be. I looked at the art and it is so in-depth. It is like the fourth dimension because it leaves so much to the imagination. Although I used crayons on poster instead of oil on canvas, I tried to portray his artwork as similarly as possible.

My artwork took time. I attempted to understand the fourth dimension through the eyes of an abstract artist, and then replicate the work as best as I could. I could not write a poem about the fourth dimension because it is hard to put into words. But I felt that I could display some mystery of the fourth dimension in this artwork.
